

## Sabin Vaccine In Question By Committee

W. JOYNES MACFARLAN

WASHINGTON (AP)—A government advisory committee is expected to recommend today whether Sabin oral polio vaccine should still be used in mass immunization programs.

The advisory group was scheduled to meet here this morning. The Public Health Service said Surgeon General Luther L. Terry would issue a statement this afternoon, after the closed meeting.

The meeting, originally scheduled for Sept. 27, was moved up hurriedly after Canadian officials reported four cases of paralytic polio among the four million persons who received the Sabin live virus vaccine. The Canadian Federal Health Department recommended against further use of the vaccine pending a study.

Meanwhile, some U.S. communities were going ahead with their immunization programs. Others were calling a temporary halt.

The discoverer of the vaccine, Dr. Albert B. Sabin, said the Canadian government was ill advised to discontinue the vaccine.

"What should be done is to intensify its use," he commented. The Cincinnati University researcher made the comments aboard the liner Queen Mary in a radio-telephone interview with The Associated Press.

"What may have happened in Canada is no different from what has happened in the United States and other countries... during the outbreaks of the disease," said Sabin. "What happens is that people already infected are given the vaccine and this then affords no protection."

"The oral polio vaccine has been given safely to over 200 million people without a single case of polio being attributable to the vaccine," he said in another radio-telephone talk with the San Francisco K.O. Polio Program Committee. "But no vaccine can prevent polio in those already infected with the disease."

"Such stories as we are now hearing from Canada have previously checked out false," he added.

He said delays in immunization leave us wide open to outbreaks of polio which could reach epidemic proportions.

Dr. Terry said Friday that ending a recommendation from his advisory committee he believed immunization programs with the Sabin vaccine should continue.

## Asks Common Market Expansion

LONDON (AP)—President Mohammed Ayub Khan of Pakistan today suggested a vast enlargement of the economic area of the European Common Market to help bring a form of world stability which the United Nations has thus far failed to produce.

The Pakistani chief executive told a luncheon meeting of the Foreign Correspondents Association he proposed to discuss this idea with President Charles de Gaulle when he goes to Paris on Saturday if de Gaulle is willing to talk about it.

Ayub Khan told some 300 correspondents and diplomats the United Nations has failed to develop into the effective organ it was meant to be.

The European Common Market, he said, "has the germ of something bigger in the world."

He asked if the scope of the Common Market could not be enlarged—"not in the political field but certainly in the economic field."

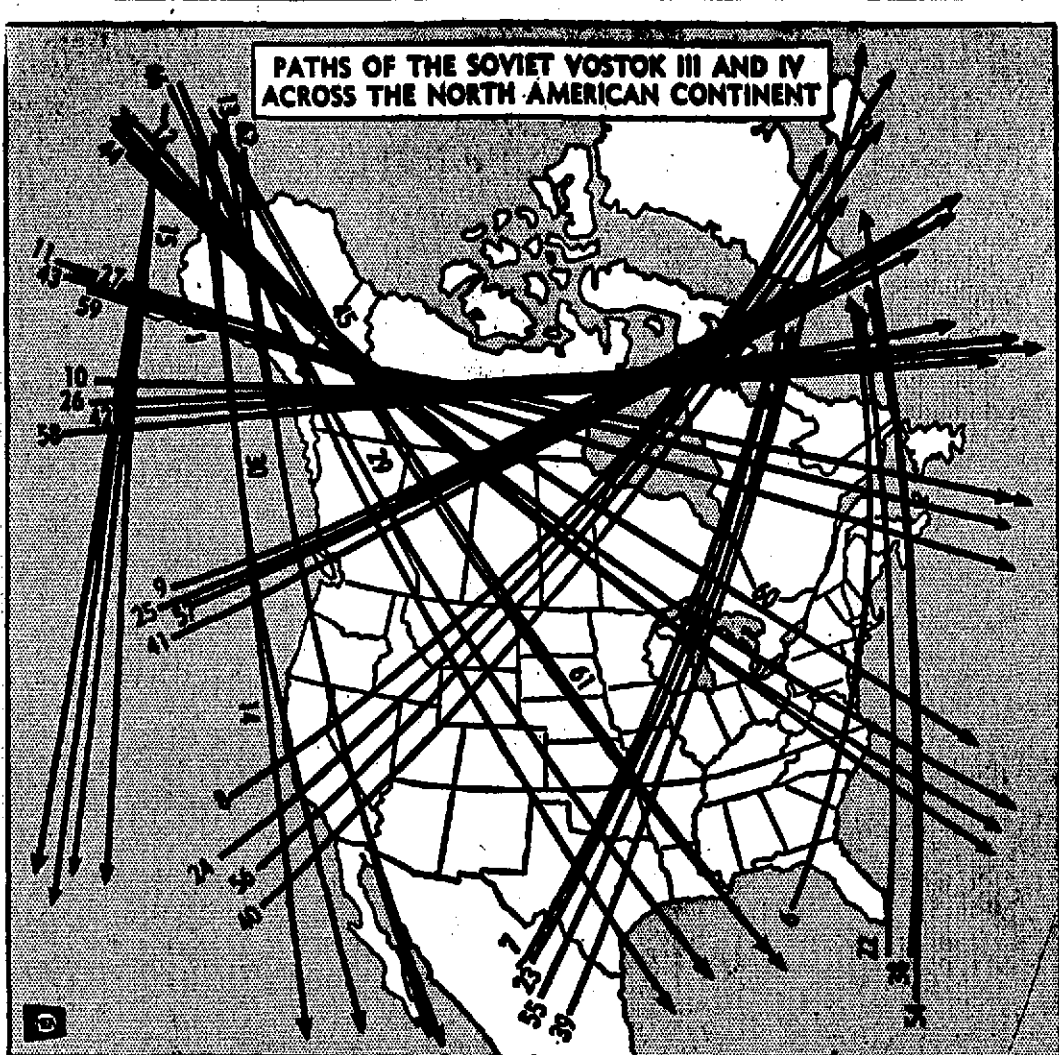

"I believe there is considerable scope in examining this idea and putting it into practice if possible," he said.

Ayub Khan has been attending the Commonwealth prime minister's conference.

## Weather

Total 1962 precipitation through August, 32.26 inches; during the same period last year, 39.41 inches.

Partly cloudy Saturday through Sunday with isolated showers. Not much change in temperature. High 65-65, Low 63-73.

**CHARTING THE COSMONAUTS—Russia's twin astronauts, Maj. Andrian Nikolayev and Lt. Col. Pavel Popovich, passed over nearly every part of Canada, the U.S. and Mexico during their recent space flights. Chart above, based on information from North American Defense Command's Space Detection and Tracking System, shows the paths taken by them. Because of the rotation of the earth beneath them, their ground paths resulted in this crisscrossing effect. Numbers indicate the orbit number of Nikolayev, who flew in the Vostok III spaceship. He completed 64 circuits of the earth in 95 hours. Popovich, launched later in Vostok IV on the same course, completed 48 orbits in 71 hours.**

## Methodist Church Shows Slight Gain

EVANSTON, Ill. (AP)—The Methodist Church in the United States reported today membership of 10,153,003, a 1 per cent gain over last year's figure of 10,046,293.

The Methodist have 38,763 organized churches, 300 less than in 1961.

The over-all membership figure, reported by Dr. Don A. Cooke, general secretary and treasurer of the denomination's Council on World Services and Finance, includes 23,611 minister but does not include 1,740,568 preparatory members.

Preparatory members, or baptized children, are reported separately. Other figures reported include 4,708,830 female members and 4,996,350 family units.

The Methodists reported a slight drop to 1,734,779 from 1,770,470 in members of the Woman's Society for Christian Service. Chartered groups of Methodist men fell to 10,887 from 11,562 but social membership rose to 412,928 from 409,741.

Total estimated assets—church buildings, equipment and land—increased \$19 million over last year and now is \$3,160,679.

The denomination paid \$104,694,942 for building and improvements, estimated \$5 million less than last year. Donations totaled \$381,504,018, a gain of \$27,553,516 over last year.

## Vote Registration to Be Studied

LITTLE ROCK (AP)—The Arkansas Legislative Council voted today to conduct a study of voter registration systems in case poll taxes are thrown out by a proposed amendment to the U.S. Constitution.

Rep. Paul Van Dalsem of Perry County suggested that the council formulate a model plan based on systems used by other states.

Congress has passed an amendment to outlaw the poll tax, which is used by Arkansas and four other states, and it will become part of the constitution when ratified by three-fourths of the state legislatures.

The Legislative Council also voted today to begin its biennial budget work Oct. 29 with those agencies supported by earmarked revenues.

The council feels it cannot take up general revenue budgets until voters rule on a proposed constitutional amendment to guarantee 50 per cent of general revenues to the schools.

## Tower Talks

CASPER, Wyo. (AP)—Sen. John Tower, R-Tex., filed 600 Republican at a \$25-a-plate dinner Thursday that President Kennedy will be the first one-term president since Herbert Hoover.

"History has vindicated that great man (Hoover), but will not vindicate the fellow we've got now," Tower said.

## Applicant Is Hanged in Effigy

UNIVERSITY, Miss. (AP)—James Meredith, 29-year-old Negro seeking to enter the University of Mississippi was hanged in effigy on the university campus early today.

The dummy was found hanging from a lamp post in front of the Student Union building about 2 a.m., a few hours after a radio-television address by Gov. Ross Barnett pledging Meredith would not be permitted to enroll next week.

The dummy, cut down by officials a short time afterward, wore a University of Georgia jacket and carried a sign which said:

"Hail Barnett. Our governor will not betray Mississippi as the governor of Georgia. We are proud that our governor stands for constitutional sovereignty."

Negroes have entered the University of Georgia.

## Ike Opens a Republican Drive Tour

By IRWIN J. MILLER

RENSSELAER, Ind. (AP)—Former President Dwight D. Eisenhower opened a campaign tour for Republican congressional candidates Thursday night with a no-names-mentioned attack on government spending and "thirst for power."

At no point did he name President Kennedy or the Kennedy administration directly. The closest he came was use of the word "frontiersmanship," which he said had suffered defeats because of "statesmanship" by GOP congressional leaders.

Eisenhower was the featured speaker at a "Charlie Halleck Day" rally on the campus of St. Joseph's College in the home town of House minority leader Charles A. Halleck, R-Ind., Eisenhower's top lieutenant in Congress.

Most of the estimated 25,000 guests ate barbecued chicken prepared over outdoor pits with six tons of charcoal in what was billed as the biggest cook-out in Indiana history.

Eisenhower, who also made brief off-the-cuff talks at Purdue University's airport at West Lafayette and at Rensselaer's court-house square, avoided any mention of foreign problems.

Republicans, he said, favor a governmental climate "in which the enterprise and energy of our people work at their best."

"That climate is not fostered merely by appeals for rigid cooperation with programs presented by an administration. And it can be destroyed utterly if these programs are devised by theorists with free rein always to dream up bigger and more glittering federal projects," he said.

"Nor is such a creative climate nourished by the constant seeking for more governmental power over all our economic life."

"This is one of the most disturbing trends of our day—the apathy of the people," he said.

## Industrial Gains Made in Arkansas

By GORDON BROWN

WASHINGTON (AP)—Arkansas, while not one of the country's major manufacturing states, has shown steady growth in this field in recent years, the Commerce Department reports.

Where 88,655 Arkansians were employed in manufacturing in 1950, the number rose to 98,085 in 1959 and to 102,657 in 1960, according to the report.

And Arkansas manufacturing payrolls climbed from \$336,053 in 1950 to \$362,834 in 1960.

The report also showed that value added to products through manufacturing processes in the state in 1960 totaled \$752,696,000, compared with \$719,284,000 in 1959.

The largest manufacturing center is Little Rock and Pulaski County.

Little Rock-North Little Rock, in 1960, had 15,366 manufacturing employees who were paid \$58,721,000. Fort Smith was second with 9,106 employees and a \$31,794,000 payroll.

Among the counties Pulaski led with 15,343 employees and a \$58,652,000 payroll. Sebastian had 9,095 and \$31,679,000 while Jefferson County had 5,310 and \$22,665,000.

Arkansas' largest manufacturing industry, naturally enough, is in lumber and wood products, which in 1960 had 23,031 employees and a \$69,375,000 payroll.

On a per farm basis, Arkansas farmers ranked 17th among the states in point of realized net income for 1961.

The realized net income per Arkansas farm was \$3,624, higher than in most of the states, an Agriculture Department report shows.

The per farm total in Arkansas, while it has fluctuated over the years, has shown a generally steady rise since 1949 when the figure was \$1,876.

Two Arkansas post offices—Little Rock and Pine Bluff—were selected by the Post Office Department for participation in a program aimed at developing a greater public interest in government publications.

For 90 days starting with September the two post offices will display government publications which are available to the general public and information on how they may be obtained.

## Township Wants Liquor Vote

RISON, Ark. (AP)—A proposed county-wide stock law and a local option proposal to halt the sale of liquor in Kingsland Township will be on the Cleveland County general election ballot Nov. 6.

Kingsland has no liquor store. The petition seeking the election has been filed with the county clerk.

## Congress Tries For Early Adjournment

By LARRY OSIUS

WASHINGTON (AP)—Congress, scenting adjournment this month, is picking up steam in its drive to get home for the fall election campaigns.

It shoved further along Friday three of President Kennedy's top proposals—the U.N. bond issue, trade expansion and standby authority to call up Reserves. Another administration bill, calling for federal aid to traffic-clogged cities, apparently fell by the wayside.

Senate Democratic Leader Mike Mansfield of Montana dangled the carrot of a Sept. 29 adjournment before the Senate, but noted it is up to the members to get the job done.

No adjournment date was mentioned in the House, but that body cleared a major hurdle with passage of the U.N. bond issue bill on a 25-134 roll call vote. There was a possibility the Senate might agree to House amendments, meaning it could be sent to Kennedy next week.

The Senate Finance Committee approved the President's proposal for authority to slash and in some cases wipe out tariffs reciprocally with other nations, particularly the booming European Common Market. Debate on the bill, already passed by the House, begins in the Senate on Monday.

The House Armed Services Committee gave unanimous approval to the President's request for standby authority to call up 150,000 Reserves.

However, House Speaker John W. McCormack, D-Mass., said the Reserves call-up bill won't reach the House floor until Sept. 24, a week later than expected.

In what he acknowledged was a move to kill the President's proposal for \$500 million in federal grants to help cities solve mass transit problems, Sen. Frank Lausche, D-Ohio, won approval of his motion to send the transportation bill to the Commerce Committee. By agreement the measure must come out Sept. 24, but there seems little chance it will be debated in the late rush for adjournment.

The U.N. bond bill was approved by 190 Democrats and 88 Republicans. Opposing it on the final roll call were 46 Democrats and 88 Republicans.

The major fight came over an amendment by Rep. John W. Byrnes, R-Wis., which would have held up the loan until the United Nations adopted an advisory opinion of the World Court that special U.N. assessments are binding on all members. Supporters of the bill managed to beat down the Byrnes amendment, pointing out that the United Nations has adopted nine previous World Court opinions.

## Jailbreaker of Louisiana Re-captured

SHERIDAN, Ark. (AP)—A Louisiana jailbreaker, fleeing from officers and bloodhounds in heavy woods, stumbled onto a highway Thursday night and was arrested by two state troopers in an unmarked car.

Johnny Easem, 21, of Oak Grove, La., surrendered to Troopers Irwin Young and B. R. Jones about three hours after he plunged into the woods when Grant County Sheriff Vernon Hope chased his car into a dead end road.

Hope said Easem, held on car theft and breaking and entering charges in the Oak Grove jail, broke out Tuesday night. Claude Butler, an East Carroll (La.) Parish deputy sheriff, spotted him Thursday and chased him into Arkansas. Butler said Easem was driving a car stolen in Lake Providence, La.

Hope said Easem came up Highway 5 to Pine Bluff, then headed for Sheridan on Highway 35. He ran into a roadblock shortly after he turned north on Highway 17.

With Hope in pursuit, Easem fled down a rural road, then took to the woods when the road ended.

Bloodhounds from Cummings Prison Farm and about a dozen state troopers joined the chase.

Irwin said Easem ran out of the woods and into the path of the unmarked car.

Hope said Easem would be held for Louisiana authorities.

## A Feminine Opinion on the Old Saying That a Woman's Work Is Really Never Done

By MARY ANITA LASETER

The old saying is that "Man works from sun to sun, but woman's work is never done." That seems to be more so now than ever before. Possibly one reason is because we in modern day America have so many more conveniences.

If that sounds like we are talking in circles, we aren't. The higher standards of living which we have developed and enjoyed through the miraculous magic of modern man's mind (henceforth referred to as the 5M's) cost money, honey, and the female of the species is both willing and able to supply a portion of the needed extra "green."

What gives extra leisure needs extra effort to supply. Seems ironic but, possibly, it's all for the good. After all, too much ease and too little effort makes for weakness in body, mind and character. (Or so we are told.)

While the number of working wives will reach the 20 million mark by 1970, only 8.5 million working wives were in this country in 1950. Quite an increase, but then the 5M's has also been responsible for an increase in the two-car families, air conditioned homes, portable TV, and entire meals which are thawed instead of cooked.

Women of today play important parts on three markets — stock, labor and super. And they start early these days, eventually carrying an impact to all three. How early, you ask? Sometimes, a sliver while after high school.

In the highly competitive world we live in, a high school education is necessary and a higher education is desirable for any advancement. Whether you have the title Mrs. or not, an AB can come in mighty handy.

So, you are starting out to look for your first job? You're nervous. Naturally. You want advice? We'll have better turn to the experts who say, "Your personal appearance is your first introduction. If you are well groomed and suitably clothed, you can forget your appearance and give your full attention to the interview."

Three words can describe the appearance for which you should strive. Clean, pressed, and neat. No matter how stylish you are, neatness is more important than glamour. If you wear anything white, especially the gloves needed in a city, be sure they are spotless. Your hair should not be extremely styled, even if your best beau says it's "keen."

An excellent book "The Young Woman in Business," says "Outward appearance is an indication of the person inside. Only a genius can afford to be careless of her personal appearance. And even a genius is a more useful member of society if she looks as smart as she really is!"

Do you fall into the category of Working Women? Oh, sure. We know any woman who keeps house stays plenty busy, and we are not minimizing that job at all. But those who are in the business world are the ones to whom we are speaking, principally.

"A worker for pay can 'take' Labor Day." So, maybe that's why Mom wanted to join in the scheme of things run so long by men.

## Things a Columnist Gets in Mail

By HAL BOYLE

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

American men are getting bigger — chested. The average male coat size has increased from 38 to 41 in the last 30 years.

According to psychiatrists, people act more sedately than usual when dressed in white clothing.

Here's something to brood about: Some scientists believe that gravity, the force that holds the earth together, is gradually getting weaker.

New York City has 30,000 dope addicts, probably the largest number of any metropolis in the Western world. It takes them up to \$75 a day, each to get their illegal kicks.

The National Dairy Institute estimates it takes between 340 and 360 squirts to make a gallon of milk.

Our quotable notables: "People will buy anything that's one to a customer." — Sinclair Lewis.

A bathing suit manufacturer here claims he can cut six bikinis from one piece of fabric.

## Heart Attack Is Fatal to Football Fan, Murrell Fisk

Murrell R. Fisk, 52, assistant manager of Oakcrest Funeral Home, suffered a heart attack at the Hope-DeQueen football game Friday night and was pronounced dead on arrival at a local hospital.

He was a member of the Methodist Church.

Survivors include his wife, two sons, Gary of Mansfield and Gerald of the U.S. Air Force in Ft. Riley, Kan. His parents of Oeltha, Colo.; one brother and sister.

Funeral arrangements are incomplete and will be announced by Oakcrest.

## Gander Field Used by Red Airliners

WASHINGTON (AP)—The Soviet Union has made three special airliner flights to Cuba by way of Gander, Nfld., in the past two months, possibly ferrying Soviet technicians.

Almost simultaneously today Canadian sources here and Royal Canadian Air Force headquarters in Ottawa confirmed reports, published in Canada, that the operation had been carried out. Both said Soviet-speaking RCAF personnel were supplied to aid the Soviet crews.

An RCAF spokesman said the men were assigned to explain procedure and regulations on the later stages of the flight. He added that this is a usual courtesy under the international civil aviation organization.

The spokesman said in cases where Soviet aircraft fly via Britain and Newfoundland to Cuba, the Russian-speaking Canadians board the planes at Prestwick, Scotland. This is the last stop before the plane reaches Canadian territory.

The Soviet Union does not have a regular airline service to Havana although such a service does exist between Havana and Prague, the capital of Communist Czechoslovakia. The Czech and Cuban airlines have been flying transatlantic routes by way of Canadian airports for about a year.

So far as could be determined from Canadian Embassy and State Department officials there had been no Washington complaints to Ottawa about the Soviet flights.

The practice could become a matter of controversy between the United States and Canada. There has been criticism in Congress in recent weeks of the use of ships of Allied countries to deliver economic and military supplies from the Soviet bloc to Cuba.

## Says Glenn Behind in Space Work

NEW YORK (AP)—Comdr. Walter M. Schirra Jr., slated for the nation's next manned space shot, says astronaut John H. Glenn Jr. has been falling behind in space work because of outside commitments.

Schirra told a network television audience Thursday night the space program needs the advice of Glenn, one of two Americans already put into orbit, but "his commitments have just about wiped him out of the space program."

In a taped interview over CBS-TV ("Our Next Man in Space"), Schirra said:

"He (Glenn) hasn't been able to maintain the currency that he should have with the rest of us. And we have frantic meetings trying to keep each other up to date on what he has been doing technically. John's falling behind, in other words."

Walter Cronkite, the interviewer, asked Schirra whether he thought it more important for Glenn to aid in preparations for other flights or to help exploit his own flight "as a propaganda weapon."

Schirra replied: "Well, we need John to help us on a lot of decisions. John can carry a lot of weight with a young engineer who has a brilliant idea that—that may not be a practical idea."

"The fact that John has had this experience and there are only two of us, really, Scott (Carpenter) and John, who are capable of saying, 'Well, I did it. I don't know how you want to design it, but this is the way I need to do it.'"

## Ike Campaigns For GOP In Pennsylvania

By HARRY W. BALL

SCRANTON, Pa. (AP)—Former President Dwight D. Eisenhower, after campaigning in the heavily Republican Midwest, gave a boost Friday night to the GOP in Pennsylvania, where the Democrats have held the governor's office for eight years.

Obviously buoyed by his reception at rallies for congressional candidates in Indiana and Illinois, Eisenhower was greeted by a cheering crowd of 10,000 in this city where Democrats outnumber Republicans two to one.

It's the home town of the GOP candidate for governor, William W. Scranton, 45-year-old congressman from whose family the city took its name.

In a statewide telecast, Eisenhower said, "I come to endorse a highly qualified man for the post of governor of our state."

Eisenhower has adopted Pennsylvania as his home state. After the rally he flew to his farm near Gettysburg.

Eisenhower's prepared text made no mention of U.S. Rep. James Van Zandt, R-Pa., who is seeking to win Sen. Joseph S. Clark's seat. However, during delivery Eisenhower mentioned him three times.

Eisenhower reviewed Scranton's war record and his part in efforts to revitalize Scranton's economy. "Unhappily," he said, "these days more and more decisions are made by the bureaucrat and fewer and fewer by the people. Unless we do something to change the trend toward Washington's concentration of power over local matters, we shall lose the self-reliance and self-determination which revitalized this city."

Earlier in his tour, he urged party unity at rallies for GOP House leaders Charles A. Halleck of Indiana at Rensselaer Thursday and Leslie C. Arends of Illinois at Kankakee on Friday.

He said a united party would put into office "the kind of people who will eliminate the Alice-in-Wonderland thinking," which, he said, is prevalent under the Democratic administration.

## Overload May Have Caused Crash

WASHINGTON (AP)—A downward pressing load ripped the right wing off the company airplane that crashed near Ravenna, Ohio, Sept. 4, killing 13 occupants, the Civil Aeronautics Board disclosed today.

Because of this finding by CAB investigators, the probe of the accident now has centered on the plane's control system.

Detailed studies are under way as to the functioning of the plane's flaps, ailerons, trim tabs and other movable wing parts.

The right wing of the twin-engine Lodestar of the Ashland Oil Co. was found about 1,000 feet from the main wreckage and was, the CAB said, that it had become detached in flight.

The plane was en route from Buffalo, N.Y., to its home base at Ashland, Ky., when it crashed, exploded and burned in northeastern Ohio.

Investigators determined that the wing broke away at the point at which it was attached to the center section of the plane, and that it was broken off by a downward-pressing load.

A plane's wings primarily are lifting surfaces, and the main stress on them is designed to be upward, against the weight of the craft.

To Enlist Refugees

# SOCIETY

Phone 7-3431 Between 8 A. M. and 4 P. M.

## Calendar

**Monday, Sept. 17**  
Circle 5 of WSCS of the First Methodist Church will meet Monday, Sept. 17 at 7:30 in the home of Mrs. Paul Bain with Mrs. Sam Huckabee as co-hostess.

The first meeting of the Hope Country Club Ladies Golf Assn. will meet in the home of Mrs. Mitch LaGrone at 10 a.m. Monday, Sept. 17. All women who have Country Club membership and who play or are interested in learning to play golf, please attend this meeting.

**Tuesday, Sept. 18**  
Wesleyan Service Guild No. 2 will meet on Tuesday, Sept. 18 at 7:30 p.m. in the Community Room of the First National Bank with Mrs. Eric Jones and Mrs. Don Brown, co-hostesses.

**Wednesday, Sept. 19**  
The Patmos PTA will meet Wednesday, Sept. 19 at 2 p.m. in the school auditorium.

## Coming and Going

Miss Linda McBride of Pine Bluff and Rex Easter, both students at the U of A Medical Center in Little Rock, spent the weekend with Mrs. Della Easter and other relatives.

Mrs. Jack Pickens of Little Rock will arrive Saturday for a week's visit with Mrs. Taylor Stuart.

Mr. and Mrs. Garland O'Bryen returned home Thursday from the Roadmasters' 77th annual Chicago, where they attended convention at the Conrad Hilton Hotel.

## Actor in Hospital

SANTA MONICA, Calif. (AP)—Actor-producer Dick Powell, 57, is in St. John's Hospital for treatment of an allergy that caused him to break out in hives, doctors said. He was expected to stay in the hospital several days.

## Bookmobile Schedule

Bookmobile Schedule next week:  
Sept. 18 —  
9:00 Gena Central Community  
9:20 Gena Central Schools  
1:00 Garland City Schools  
2:15 Garland City Post Office  
Sept. 19 —  
9:00 Badway Schools  
12:45 Downs Home  
1:20 Falcon  
2:00 Brockman Hill  
2:30 Michael's Grocery  
Sept. 20 —  
8:30 Allen Home  
9:00 Cale School  
11:45 Edwards Home  
1:20 Patmos School  
2:45 Patmos Community

## Edie Adams Gets Child Custody

LOS ANGELES (AP)—"This is the way Edie would have wanted it," said Edie Adams after a judge awarded her custody of the late comedian Ernie Kovacs' two daughters by an earlier marriage. Superior Judge Clarence L. Kincaid ruled Thursday that both Miss Adams and Kovacs' first wife, Betty, are fit and proper guardians but that the girls "are of sufficient age to form an intelligent preference."  
The daughters, Betty Lee, 15, and Kippie Raleigh, 13, had testified they preferred living with Miss Adams.  
The first Mrs. Kovacs, 39, wept bitterly as Miss Adams' attorney, Murray Chudiner, said the first wife was motivated by money love, not mother love, in seeking custody.  
He said Mrs. Kovacs made no attempt to find and comfort the children after Kovacs died last January. The girls had been living with Kovacs and his second wife since 1955.

## Traffic Offenders Get a Reprieve

LITTLE ROCK (AP)—Traffic offenders got a reprieve Thursday. It will last at least two days. Traffic Judge John L. Sullivan called off Thursday's court session because the air conditioning in the court room was not working. Sullivan said no cases would be heard until the system is repaired.

DeQueen was originally called "Calamity".

## School Menu for Next Week

School menu for week of Sept. 17-21:  
Monday — Hot dog, on bun, mustard, baked macaroni and cheese, tossed salad with tomatoes, peach cobbler, milk.  
Tuesday — Chicken spaghetti, buttered english peas, stuffed celery, hot rolls, butter, jello, milk.  
Wednesday — Hamburger on bun, green beans, carrot sticks, cheese slices, chocolate cake, milk.  
Thursday — Vienna sausage, potato salad, breaded tomatoes, bread, butter, cinnamon rolls, milk.  
Friday — Tuna salad, scalloped potatoes with cheese, hot rolls, butter, chilled peaches, milk.

## Objects to Delays on Ouachita

CAMDEN, Ark. (AP)—Delays by the Army Engineers and protests by Louisiana duckhunters are holding up the \$52 million Ouachita River navigation project, H. K. Thatcher, executive vice president of the Ouachita Valley Association, said Thursday. The association has filed a telegram to the Engineers in Washington, saying the delays have damaged the association's efforts to get appropriations for a nine-foot navigational channel on the river.  
The telegram, sent to Lt. Gen. W. K. Wilson, chief of the Engineers in Washington, said the delay in announcing location of a new lock and dam on the Ouachita below Jonesville, La., was "unwarranted and damaging to appropriations efforts and detrimental to the whole basin development program."  
The Engineers have considered putting the lock at Cathoos Lake near Jonesville in northern Louisiana, but duck hunters in the area say the lake is a duck hunting paradise.  
The hunters have lobbied through fish and wildlife agencies against locating the lock at Cathoos Lake.  
Thatcher said the recreational benefits of the new lake would far outweigh the benefits hunters have ever realized out of Cathoos Lake.  
Several years ago Congress passed a bill which said fish and wildlife departments would be given consideration when the Engineers planned to locate a dam in an area which would involve fish and wildlife. The problem hinges here, Thatcher said.  
The Washington office of the Engineers has taken a lot of time to listen to complaints of duck hunters and other people against putting the lock at Jonesville, Thatcher said, causing a holdup in the program.  
"We feel this whole thing is being held up in Washington. It's not the Vicksburg office of the Engineers," he said.  
Engineers would build four dams on the Ouachita, two in Arkansas and two in Louisiana. One in Louisiana would be at Columbia and would be the first to be constructed. The other tentatively has been set at Jonesville.  
The locks in Arkansas would be reconstructed dams at Felsenthal, three miles north of the Louisiana line, and at Calton, just north of El Dorado.  
Thatcher said Engineers probably would build one dam a year, with the entire drainage and flood control program to be completed by 1967.  
The association sent a delegation to Washington recently to ask for \$5,605,000 for work on the Ouachita in the 1962-63 fiscal year.

Here is the new and dashing look of fine corduroy in autumn fashions for late day. Dinner suit (left) in velvety wide-rippled corduroy by Jo Copeland of Patullo is oyster white. Hostess costume (center) has moss green pinwale for coat and knickers. Lining for coat is magenta and rose print cotton. His dinner jacket is sand color corduroy with black satin collar. Quilted pinwale in rosy red (right) is used for at-home skirt worn with sheer wool sweater blouse.

Learning to care for books is part of learning to love them. Young lady, above, mends work book with "invisible" magic tape. She can read the printed material through it easily.

## DOROTHY DIX

Keep the Faith

By HELEN WORDEN ERSKINE  
Dear Helen: I am an assistant university librarian who has often been on the verge of telling you how very much I enjoy the letters and answers in your column.  
Yesterday I chanced upon a line of Michael Field's, "The Enchanting Miracles of Change." This set me to reflecting upon the miracle of change in my own life. Maybe my lesson in faith will help girls in a similar situation.  
It all began around the beginning of the fall semester a year ago. I'd had a busy day; making out library cards, checking lists of reference books for new students, and answering the thousand and one questions that those from freshmen to seniors put to a librarian.  
One boy kept coming back with variations on the same question. Finally, in exasperation, I snapped, "Scram. You know the answer as well as I."  
He grinned. "Sure, but I like to hear you talk." Our head librarian came to my rescue. The same boy was back next day and next.  
I soon found he needed a guiding hand in the choice of books and profession. My family thought me crazy to waste time on such a muddle-head.  
I admit there were moments when I wondered to, but the boy's very dependence tugged at my heart. He couldn't even remember places we'd planned to visit.  
The bill the House passed included all of the request except \$105,000 needed to allow a contract to be let on the projects.  
Thatcher said Sen. John L. McClellan, D-Ark., and Sen. Allen Ellender, D-La., have voiced a belief that they can restore the \$165,000 to the bill before the Senate passes it, and congressmen from both states have said they believe they can get the House to accept the alteration.  
But Thatcher said the Cathoos controversy still looms, and even if the Congressional delegations from both states get the bill passed with the added \$105,000, the massive project may find it necessary to wait out one more duck season, at least.  
Taylor in Thailand  
BANGKOK, Thailand (AP)—Gen. Maxwell D. Taylor arrived today for discussions with Thailand's top officials.

## Things a

Continued From Page One

from a square yard of material. A survey revealed that half of all cocktails consumed in the home during the year are served between Oct. 1 and Dec. 31.  
More than 95 per cent of all business transactions are now conducted on credit.  
In Saudi Arabia, where slavery is still legal, a choice young girl slave sells for nearly \$1,200, a strong young man goes for about \$600 and an old woman, "good only for watching goats," fetches \$150 or less.  
New highways wear tires out up to three times faster than do worn roads which have become coated with a smooth layer of dirt, oil, tar and rubber.  
Americans give each other an average of 50 presents a year.  
The high rate of juvenile delinquency in large-income families is blamed by psychologist William T. Bourke on the fact fathers are too dedicated to their jobs. "The work addict's child suffers," he says, "because his father has no time for him."  
Baseball geography: there's a Ball, La.; Mound, Texas; Field, Ky.; Homer, Ga.; Ballclub, Minn.; Ball Ground, Ga.; Base Line, Mich.; Pitcher, N.Y.; Centerfield, Utah, and Umpire, Ark.  
The horned toad isn't a toad but a lizard. Birds sing 18 hours a day during most of the year. Elephants have toenails the size of clam shells, and zokeepers file and trim them every three months.  
It was Josh Billings who observed, "If it wasn't for faith, there would be no living in this world. We couldn't even eat hash with any safety."

## Says Glenn

Continued From Page One

have it done."  
"Once you've flown," Schirra said, "you can come back and say these flaws exist and this man has to be in on some of the newer developments."  
Schirra tentatively is scheduled to make his orbital flight Sept. 28. Since Glenn's flight last February, he has been making speeches, granting interviews, testifying before Congress, and briefing officials up to and including President Kennedy.  
Schirra did not specify any outside commitments in his criticism.  
In Houston, Thursday night, Al Chop, deputy public affairs officer for the Manned Spacecraft Center, said Glenn has undergone pressure for public appearances but has not fallen behind in his training.  
Dr. Robert R. Gilruth, director of the Manned Spacecraft Center, and Glenn were not available for comment.

## Calls for Help on Cuban Crisis

WASHINGTON (AP)—Sen. Mike Mansfield of Montana today called upon the Senate to close ranks in support of President Kennedy in the crisis over the Communist military buildup in Cuba.  
Mansfield, the Democratic floor leader, said Kennedy's new co-patience statement made clear the President's "complete command of the realities of that situation."  
He told the Senate Kennedy's words provide an excellent framework for Monday's consideration by the Senate Foreign Relations and Armed Services committees of a resolution "which will be helpful to him in this situation."  
The two committees are to look into various Republican proposals aimed at a tougher attitude on Cuba and Mansfield's own proposal expressing firm backing for whatever course the President deems wise.

## Ike Opens a

Continued From Page One

parent thirst for more and more power centered in the federal government, particularly the executive branch."  
Eisenhower singled out "recently proposed farm legislation" as an example of programs which he said most citizens resent because of "blackjacks... the well-nigh explicit threat, though couched in legalistic language: 'Go along with us—or else.'"  
He praised Senate minority leader Everett Dirksen or Illinois along with Halleck.  
"Certainly, frontiersmanship, confronted with their statesmanship, has had to abandon a number of its Alice-in-Wonderland adventures into areas lying beyond the horizon of common sense," he said.

## Sees Better Life for Both Nations

WASHINGTON (AP)—President Kennedy expressed confidence today that the American and German peoples will "one day witness the peaceful emergence of just and stable conditions in which the benefits of freedom can be developed in the fullest sense."

In a formal exchange of remarks with new West German Ambassador Karl Heinrich Knapstein, the President also reaffirmed that the United States is fully pledged to the freedom and welfare of Berlin and its people.  
Immediately after Knapstein presented his credentials, the President received Vice Chancellor Ludwig Erhard of West Germany for a discussion of international economic problems.  
The State Department, prior to Erhard's arrival Thursday, said that the German's discussions with Kennedy and members of the U.S. administration would be an overall review of the international and bilateral economic picture.

## Transit Bill to Committee

WASHINGTON (AP)—President Kennedy's \$500 million mass transit bill was shunted to the Senate Commerce Committee today, apparently dooming it for the 1962 session.  
Sponsors of the bill accepted a proposal by Sen. Frank J. Lausche, D-Ohio, to send it off the floor, explaining privately they lacked the votes to block the motion.  
Under the agreement worked out by Lausche and Sen. Harrison A. Williams Jr., D-N.J., the commerce group must send the bill back to the floor by Sept. 24.  
However, there seems little chance the measure will be brought up for debate again in the adjournment rush.  
Lausche frankly said that he was offering his motion to try to kill the bill.  
Kennedy asked for \$500 million in federal subsidies over the next three years as a badly needed aid to cities in meeting traffic congestion and commuter problems.

## Would Expel South Africa

LIBREVILLE, Gabon (AP)—Twelve former French African colonies called on the U.N. General Assembly Thursday to expel South Africa because of its racial policy and Portugal because of its colonial policy.

## Rioting in Japan

TOKYO (AP)—Three hundred members of the radical Zengakuren student federation fought with police today in a futile attempt to demonstrate at the Soviet Embassy against nuclear testing. Three hundred police drove them off after a 15-minute fight.

## Oklahoma Leads in Spa Meet

HOT SPRINGS, Ark. (AP)—C. W. Selvy, 51, of Artleborough, Okla., carried a one-stroke lead into the second round of the 5th annual Southwest Seniors Golf Tournament at Hot Springs Country Club today.  
Jack Braumtel, 50, of North Little Rock, was a strike behind Selvy's 74.  
Selvy also led the division for golfers aged 50 to 54. Fifty is the minimum wage for the 54-hole tournament which ends Saturday.  
Ted Pyburn, 53, of Excelsior Springs, Mo., led the 55-59 bracket with 67. A 67 also put Al B. Couch, 46, of Kansas City ahead in the 60-64 group.  
Dr. H. K. Wade Sr. 68 of Hot Springs led the 65-69 division with a 77 and Joe Mieler, 71, of Hot Springs led the over 70 group with 81.  
Golfers from 12 states are competing.

## Hearing on State Radio Requests

WASHINGTON (AP)—A hearing on applications involving radio stations at Magnolia and Smackover will be held in Camden, starting Nov. 1, by Thomas Donahue, an examiner for the Federal Communications Commission.  
Station KVMA at Magnolia has asked for authority to increase power from one to five kilowatts. Smackover Radio, Inc., has asked permission to operate a new daytime station at Smackover.  
The hearing originally was scheduled for Washington.  
Donahue and other commission officials will arrive in Arkansas 10 days earlier for a hearing opening Oct. 22 at Pine Bluff on an application by KATV, Little Rock, for permission to move its television transmitter and tower from Jefferson Springs, near Pine Bluff, to a site between Little Rock and Hot Springs.

## Red Defector Dies in Germany

ALSFELD, Germany (AP)—Soviet author Alexander Tshevesh-vili, a Stalin Prize winner whose flight to the West caused a sensation in 1958, died here last week, the Alsfeld registrar's office revealed today.  
Tshevesh-vili, who was 59, defected weeks after Soviet pressure forced Boris Pasternak to turn down the Nobel Prize for literature.  
He was awarded the 1951 Stalin Prize for his novel "Lelo."

IDENTIFIED - Cereal leaf beetle that attacks all cereals and some grasses was identified in the United States for the first time this year by the U.S. Department of Agriculture. The insect, which has done damage in Europe for many years, has been found in parts of Michigan and Indiana. Its favorite crops are oats, barley and wheat. One-quarter inch adult is shown above; larva below.

# LIGHT OF THE WORLD

Is The Lord Our God

## REAPING

"And they took the fruit of the land in their hands and brought it down to us." Deut. 1:25. *Isn't that just like God's children...*

always ready to lend a helping hand, or to give an extra portion — all if necessary. When the crop is ripe, the reaping done and the bounties stored away, *do you ever stop to thank God?* Maybe your inventory still shows all you ever possessed. Better realize it all came from God and give back a portion. How is it right now with you and yours? It is reaping time but what will your harvest be? Do you support His cause, His church, or, are you one of the would-be self-sufficient? Why not begin right now to use your harvest to help bring in the Kingdom?

**YOU IN THE CHURCH  
THE CHURCH IN YOU**

Character is a by-product of the church. It is here that young and old alike are showered with benedictions stronger democracy, in the church the ministerial are the officers of state in these perilous times. Then we ask our citizens should go to the church of our choice on Sunday. "You in the Church and the Church in you" form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.
